2022 Post-Show Snapshot

28 June - 30 June 2022

The leading meeting place for the advanced battery and powertrain technology community

More than 10,000 industry professionals gathered at Messe Stuttgart to attend The Battery Show Europe and Electric & Hybrid Vehicle Technology Expo. Over three days, attendees made the most of features such as the 540+ exhibitor trade show, Product Showcases and Networking Receptions.

This powerful event also featured an expert-led conference that explored the cutting-edge innovations & latest developments set to accelerate the European battery market.

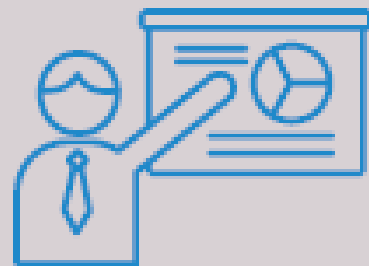

The 2022 Show Features

Free to Attend Expo

The Battery Show Europe Expo provided attendees the chance to find solutions to their application needs, get a look at the latest technologies, and connect with their peers. Some of the great features included:

- A 540+ Exhibitor Trade Show
- New Product Showcases
- Networking Receptions

Conference

Delegates took a deep dive into an two-track program consisting of keynotes, technical sessions and lightning talks, with speakers from industry thought leaders and top OEMs such as:

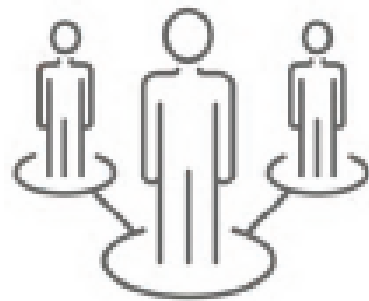

- | | | |
|--------------|-------------------------------|----------------------------|
| • Volkswagen | • Farasis Energy Europe | • Vulcan Energy |
| • Volvo Cars | • SVOLT Energy Technology Ltd | • Finnish Minerals Group |
| • Northvolt | • Freyr | • Leading Edge Materials |
| • Leclanche | • Solid Power | • Automotive Cells Company |

Attendees By Country

Attendees By Continent

"Unknown" under continent refers to registrants who did not submit a country when registering.

Job Functions

Attendee Snapshot

- Application Development Engineer
- Product Engineer
- Battery Concept Engineer
- Sr. Electronic Engineer
- C-Suite
- Lead Cell Design Engineer
- Plant & Manufacturing Engineering Director
- Principal Engineer
- R&D Engineer
- Product and Electronics Engineering Leader
- Sr Application Engineer
- Sr Battery System Engineer
- System Engineer
- Thermal & Mechanical Engineer
- Power Systems Product Manager
- VP/Owner
- Battery Storage Engineer
- Automation Engineer

Testimonials

An excellent place to strategise whilst having the whole battery industry surrounding you. **Wasim Sarwar Dilov, Head of Research and Advanced Engineering, Rimac Automobili**

The Battery Show provided us with a number of actionable new leads with target business which we were not aware of before the show and would not have found without the show. **2022 Exhibitor**

An informative event that gave an overview of the main trends of current needs and inspires reflection on future research. **Stoliarchuk Vitalii Vasilievich, (PhD), Testing engineer for rocket and space technology, Oles Honchar Dnipropetrovsk National University**

Our experience at the Show was very notable. We met even more industry stakeholders than anticipated, many of them of high commercial value for us. We've decided to book for the next edition on-site. **Oscar Miguel, Deputy Director, CIDTEC Energy Storage**

The visitors are specialists in their profession. The talks have a very high standard, in particular many technical details are discussed, which is of course very good. This means that new potential projects can be acquired directly at the trade fair. This is outstanding for a fair. **Thomas Müller, BDM, H.B. Fuller**

A must-visit show if you want to stay on top of what's happening in the battery industry. **Stefan Tielen, Market Development Manager, Exolon Group N.V.**

EU's most important event in batteries and EV tech industries. **Lino Silva, Founder, Chief Innovation Officer, SPEEV Special Electric Vehicles**

Perfect match, all important players and key people are on the fair, all aspects of the battery production chain covered. **Martin Herkenhoff, BDM, Bischof + Klein SE & CO. KG**
