2023 Post-Show Snapshot

23 May - 25 May 2023

The leading meeting place for the advanced battery and powertrain technology community

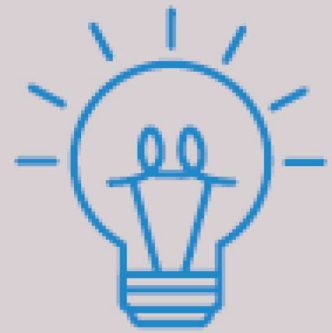

More than 16,000 industry professionals gathered at the Messe Stuttgart to attend The Battery Show Europe and Electric & Hybrid Vehicle Technology Expo. Over three days, attendees made the most of features such as the 760+ exhibitor trade show, Product Showcases, Networking Receptions as well as the brand new Open Tech Forum.

This powerful event also featured an expert-led conference that was curated for the first time by an Advisory Board consisting of distinguished engineers, industry leaders and next-generation innovators. The topics explored included cutting-edge innovations & latest developments set to accelerate the European battery market.

The 2023 Show Features

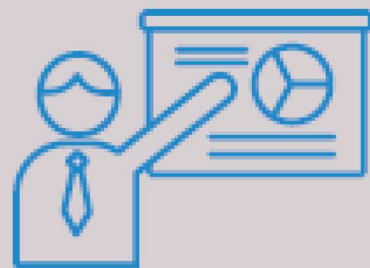

Free to Attend Expo

The Battery Show Europe Expo provided attendees the chance to find solutions to their application needs, get a look at the latest technologies, and connect with their peers. Some of the great features included:

- A 760+ Exhibitor Trade Show
- Product Showcases
- Brand New Open Tech Forum
- Networking Receptions

Conference

Delegates took a deep dive into a three-track program consisting of keynotes, technical sessions and lightning talks, with speakers from industry thought leaders and top OEMs such as:

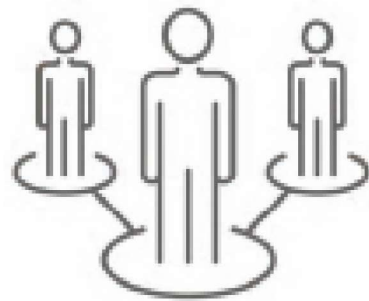

- | | | |
|-----------------------|---------------------------|-----------------------------|
| • Baker Hughes | • Global Battery Alliance | • Siemens |
| • Battery Associates | • Henkel | • SVOLT |
| • CustomCells | • Mitsubishi | • Toshiba |
| • Dow MobilityScience | • PowerCo | • Volta Energy Technologies |

Demographics

Attendees By Country

Attendees By Continent

"Unknown" under continent refers to registrants who did not submit a country when registering.

Job Functions

Attendee Snapshot

- Application Development Engineer
- Product Engineer
- Battery Concept Engineer
- Sr. Electronic Engineer
- C-Suite
- Lead Cell Design Engineer
- Plant & Manufacturing Engineering Director
- Principal Engineer
- R&D Engineer
- Product and Electronics Engineering Leader
- Sr. Application Engineer
- Sr. Battery System Engineer
- System Engineer
- Thermal & Mechanical Engineer
- Power Systems Product Manager
- VP/ Owner
- Battery Storage Engineer
- Automation Engineer

Testimonials

An excellent place to strategise whilst having the whole battery industry surrounding you. **Wasim Sarwar Dilov, Head of Research and Advanced Engineering, Rimac Automobili**

It's **THE** exhibition for the battery industry in Europe, showing lots of electronics that belong closely to batteries. **Yannick Konrad, Head of Sales, Isabellenhütte Heusler GmbH**

As a solution partner in the field of adhesive tapes and as a bonding pioneer, The Battery Show with its high cross-sectional character as well as the coverage of the entire value chain is an ideal meeting point for networking and making new business contacts. To build a dynamic innovation ecosystem and to promote our sustainable and trendsetting bonding solutions, we would not want to miss this trade fair. **Carsten Herzhoff, Managing Director & CTO/ COO Lohmann GmbH & Co. KG**

Our experience at the Show was very notable. We met even more industry stakeholders than anticipated, many of them of high commercial value for us. We've decided to book for the next edition on-site. **Oscar Miguel, Deputy Director, CIDTEC Energy Storage**

The visitors are specialists in their profession. The talks have a very high standard, in particular many technical details are discussed, which is of course very good. This means that new potential projects can be acquired directly at the trade fair. This is outstanding for a fair. **Thomas Müller, BDM, H.B. Fuller**

A must-visit show if you want to stay on top of what's happening in the battery industry. **Stefan Tielen, Market Development Manager, Exolon Group N.V.**

EU's most important event in batteries and EV tech industries. **Lino Silva, Founder, Chief Innovation Officer, SPEEV Special Electric Vehicles**

Perfect match, all important players and key people are on the fair, all aspects of the battery production chain covered. **Martin Herkenhoff, BDM, Bischof + Klein SE & CO. KG**
