Spaces Packages

Space Only Stand Packages

Effortlessly embody your brand with affordability and eco-conscious sustainability.

Exhibiting
doesn't
have to be
complex.

Get the complete exhibiting experience with our FullVision Spaces Packages.

We ensure you have all the essentials to make your exhibit stand out.

Every package includes a durable stand structure with vibrant, full-colour wall graphics to grab your audience's attention!

Rest assured, and take it easy knowing your next event is in good hands.

We've got everything covered.

**Full Vision
Spaces is proud
to comply with
Informa
Better Stands
Gold.**

**We will recycle or give
a second life to the stand.**

- ✓ Stand structure
- ✓ Platform
- ✓ Furniture and equipment
- ✓ Lighting
- ✓ Fascia and overhead signage
- ✓ Rigged structure
- ✓ Ceiling
- ✓ Display facilities
- ✓ Floor covering
- ✓ Graphics and decorative items

Testimonial

Routes

Europe 2023

**Full Vision Spaces proved invaluable
as our project partner.**

**Despite our late entry, their
exceptional support and
unwavering commitment ensured
flawless execution every step of the
way.**

HANNAH LO BAO

Commercial Director, Isle of Man Airport

The Full solution

If you're pressed for time and budget and want to make a great impression on your visitors, FullVision Spaces stands are the ideal solution.

We've prepared this step-by-step guide to demonstrate how effortless it can be to create a memorable experience at your next event.

So, sit back, relax, and leave the event preparation to Fullvision.

THE EXTRA TOUCH

Once the stand design is finalised, consider any extra components to enhance presentation like LED screens, furniture, and display fixtures.

Select supplementary elements based on stand activities to customize it to your exact requirements.

What it's included within price?

The aluminium stand structure and fabric tension wall graphics.

Mains supplied to the stand, plus additional electrical sockets, power supply and ensure proper testing*.

LED spotlights are used to provide high output while consuming low energy.

The raised platform and carpet are laid with polythene protection during construction.

The furniture shown on the visuals for each stand type.

Plan for health and safety, manage the project, and liaise with the venue.

We take care of both installation and dismantling.
